Backpacks, scissors, glue...back to school reminders are all over the place. Whether you have kids ready to return to school or walk through the aisles of the local Target, the feeling of summer coming to an end is in the air. It may seem crazy but the best time to start planning and booking Spring Break is NOW! While many people think waiting until the last minute may get you a "deal", the reality is flights are limited and fill up quickly. With so many schools out at the same time, it is better to get your trip booked so you aren't disappointed later.

With that said, if you are still considering a Winter Break trip, you need to act immediately! Prices are rising, flights are full and time is running out!

# Play Your Way Travel Review

In late June, my husband Mark and I traveled to Jamaica to tour 9 resorts. Of the nine, our favorite was Sandals Whitehouse! Please read my review below to learn more about this JEWEL of a resort! Remember, my website is filled with pictures and reviews from resorts that I have personally stayed at!

This luxurious, sophisticated and romantic 360-room resort sits on 50 acres of oceanfront property, about 75 minutes from the Montego Bay airport.

Charming Italian piazzas and fountains are surrounded by lush gardens and foliage, featuring three European-inspired villages – Italian, French and Dutch offering accommodations, which can include Butler service and where EVERY room faces the sea!

Witness an amazing sunrise or sunset from the secluded 2-mile stretch of pristine beach. Indulge in a romantic beach dinner or any of the al fresco dining options with breathtaking views. Enjoy nightly live music, weekly beach parties or simply cozy up in front of a beachside fire pit with a chocolate martini!

Dining at Sandals Whitehouse was truly an exceptional experience. From fabulous breakfast and lunch buffets, personal pizzas, an antipasti bar and a beach club featuring jerk chicken to the a la carte dinner restaurants, we were amazed at the gourmet quality and extraordinary service!

Did I mention the Parisian-style patisserie, featuring sinful pastries, made to order crepes with yummy fillings and toppings, coffees and dessert delights? Truly decadent!

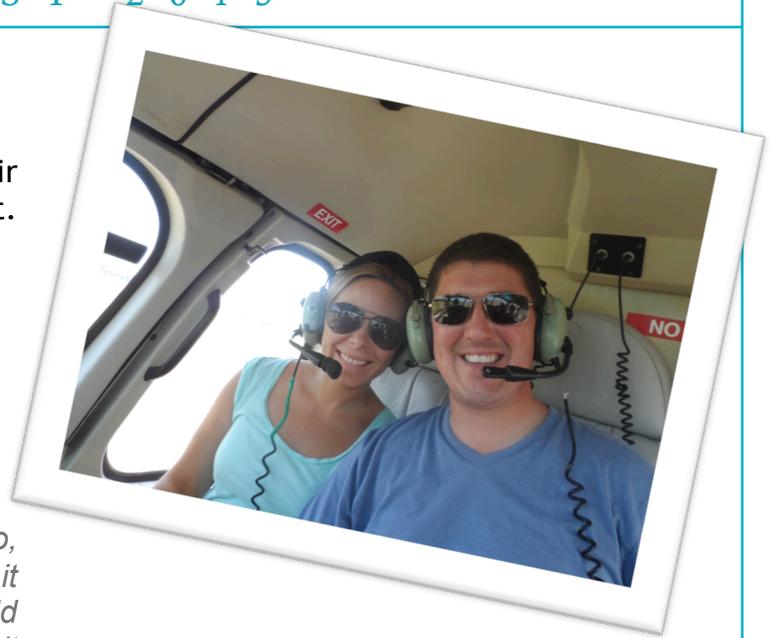

Plenty of activities such as scuba, kayaks, windsurfing, snorkeling, water-skiing, beach volleyball, tennis and more are all INCLUDED as part of your stay! Or just laze by one of the 4 pools, soak in one of the 4 whirlpools or enjoy a premium frozen concoction from one of the 2 swim-up pool bars.

Needless to say, I was truly impressed with the beauty and service of this couples only, all-inclusive masterpiece! I highly recommend this as a perfect honeymoon destination or romantic rendezvous to relax, rejuvenate and indulge!

## Happy Clients

Kevin and Alicia just returned from their honeymoon to Sandals Halcyon Beach in St. Lucia. This newlywed couple has booked two trips with me and I absolutely love working with them. Read their testimonial below...

*"Wendy has helped us with two trips, most recently to Sandals Halcyon Beach. The resort was awesome and the best recommendation she made was the helicopter ride to the resort! What a memory! When we went to Mexico, she found us an amazing deal, even though it was a busy travel season in December. We told her what we were looking for and she narrowed it down to a few options for us to choose from, which saved us a ton of time and research. She provided personal recommendations, which helped us determine which resort and accommodations we wanted to book. We were very impressed with everything. Wendy's attention to detail and personal touch go above and beyond and we'd recommend her to any of our friends!"*

## Travel Tip

Ziploc Bags can be extremely useful during travel! Quart and gallon Ziploc bags are a useful item to bring, to store sunscreen, a book, phone, iPad, passport, money, etc. for easy access in your beach bag, and preventing sand getting all over everything! I pack most of my toiletries in zip-locks to prevent leakage issues and bring extra gallon zip-locks for repacking open toiletries, wet bathing suits, etc. Don't forget to stock up before you go!

## Referrals

I attribute much of the success of Play Your Way Travel to my clients and their referrals. A referral is the highest compliment you can give me. While I love receiving inquiries from the Internet, it is when I am able to work with repeat clients and referrals that I know I am making people happy and fulfilling their travel expectations. Please remember to keep telling your friends and family about Play Your Way Travel's commitment to the entire travel experience!
